MILLBOARD DECKING

Transform your outdoor space and create unforgettable moments with Millboard's Resin Mineral Composite decking (RMC), where beauty meets durability.

Disappearing screws
Durafix screws are virtually hidden beneath the unique Lastane surface.

Natural wood look
Molded from selected hardwood for an organic, realistic wood-grain appearance.

High slip-resistance
Lower slip potential than wood due to the pliable Lastane layer.

Low maintenance
No staining or oiling. Only seasonal cleaning is required.

ENVELLO SIDING

‹ **BOARD & BATTEN+**
LIMED OAK

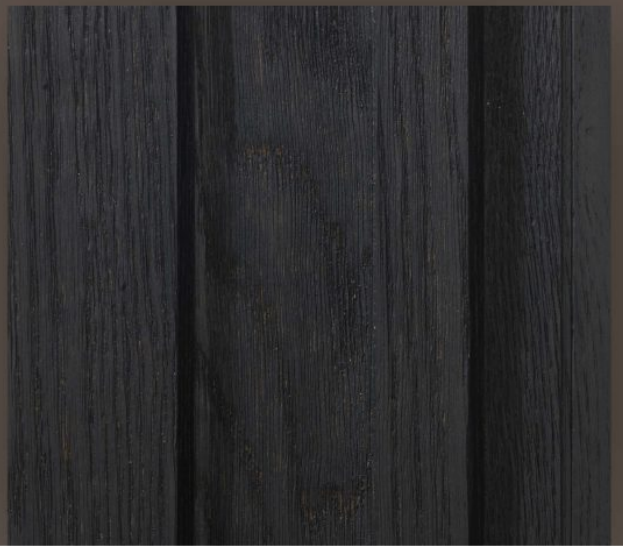

Reimagine your outdoor environment with Millboard's Resin Mineral Composite (RMC) Envello siding, where elegance harmonizes with resilience. Crafted for enduring quality, Envello withstands the test of time, enhancing any outdoor space.

Natural wood look
Molded from selected hardwood for an organic, realistic wood-grain appearance.

Low maintenance
No staining or oiling. Only seasonal cleaning required.

WUI Certified
Verified as suitable for use in Wildland Urban Interface areas, when installed in accordance with the install guide.

LASTA-GRIP

ADDED SAFETY | 2 COLORS

Our Lasta-Grip collection combines the attractive appearance of our Enhanced Grain boards with a unique textured design that offers outstanding slip-resistance without the rough feel of conventional gritted strip boards. Perfect for commercial areas where safety is paramount, but appearance is important.

ENHANCED GRAIN
LIMED OAK - OUTDOOR KITCHEN

Unlike other composites, Millboard possesses the remarkable capability to be shaped, enabling you to seamlessly craft stunning curved structures without any visible fasteners. This is thanks to the distinctive composition of Millboard's Resin Mineral Composite (RMC) core and its flexible Lastane surface layer.

Available across all the range including flexible edgings and fascia.
